

## Positive Behaviour Support

This Positive Behaviour Support eLearning has been developed for those who support children and young people who have challenging behaviour. They may be working in an educational environment or out in the community.

This work is extremely rewarding, but it can also be demanding, exhausting and confusing.

**The Positive Behaviour Support eLearning module will help Support People to:**

- understand and define challenging behaviour,
- think about the factors that may contribute to challenging behaviour,
- recognize the needs and work with the child or young person to develop strategies to support them with these needs,
- work collaboratively with others to agree on, implement and review behaviour support strategies,
- appreciate the important role they play in the life of a child or young person with behaviour which is challenging.

---

By completing this eLearning, the supporting assessment and a workplace verification, you will achieve Unit Standard 23388: Provide support to a person whose behaviour presents challenges. This contributes to the Level 3 New Zealand Certificate in Health and Wellbeing.
